

LATEST INFORMATION

More than 4.7 million doses of the COVID-19 vaccine have been administered. Of these, over 3 million people have had their first dose and over 1.6 million people have had their second dose and are fully vaccinated.

Of Auckland’s Māori population, 55% have received their first dose and 27% have received their second.

Of Auckland’s Pacific population, 64% have received their first dose and 41% have received their second dose.

Overall, 78% of Auckland’s population have received at least one dose and 41% have received their second.

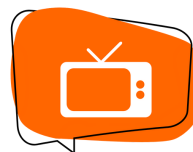

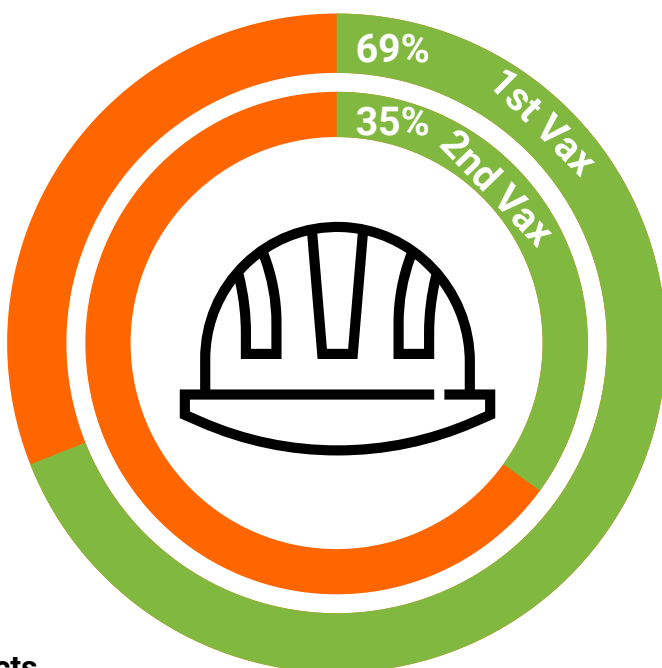

WHERE TO GET YOUR VACCINE

Manurewa Marae and Huakina Trust in Pukekohe will operate their first mobile clinics.

By Friday two more buses will be handed over to Pacific providers, SouthSeas Healthcare and the Fono, ready for their launch at a Pasifika pop-up community vaccination event in Favona. A pop-up vaccine event is planned for Otahuhu mosque this week.

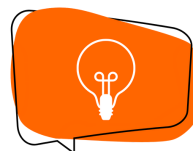

Habit Health is now available to book your workplace vaccinations – email workplace@habit.health

Key Facts

The Pfizer vaccine is highly effective if people have both doses. Studies show that about 95% of people who have received both doses of the vaccine are protected against getting COVID-19 symptoms.
